VILLAGE OF SPRINGVILLE
2024 MINUTES

AGENDA DATE 2/20/24

February 5, 2024

7:00 P. M.

The Regular Meeting of the Trustees of the Village of Springville was held at the Village Municipal Building, 65 Franklin Street, Springville, New York at the above date and time.
Present were:

Mayor	Timothy Michaels
Trustees	Lindsay Buncy Reed Braman Mary Padasak Terry Skelton
Village Administrator	Liz Melock
Superintendent of Public Works	Duane Boberg
Police Officer in Charge	Nick Budney
Village Attorney	Paul Weiss
Building Inspector/ Code Enforcement Officer	John Baker
Deputy Clerk	Holly Murtiff
Also Attending	Max Borsuk, Springville Journal
Lindsay Lorigo, Erie Co. Legislator	
Lorigo staff member	
Todd Catalano, Emergency Manager	
Bill Krebs	Kelly Baker
Russ Belscher	
Absent	Marc Gentner, Fire Chief

Mayor Michaels called the meeting to order at 7:00 PM.

1. Minutes

Minutes of the Regular Meeting of January 16, 2024 were approved as written by Trustee Skelton, seconded by Trustee Braman; carried, Mayor Michaels, Trustees Skelton, Braman, Buncy and Padasak voting yes, none opposed.

Minutes of the Executive Session meeting of January 16, 2024 were approved as written by Trustee Skelton, seconded by Trustee Braman; carried, Mayor Michaels, Trustees Skelton, Braman, Buncy and Padasak voting yes, none opposed.

PUBLIC COMMENT

Former Mayor William Krebs addressed the Board with an update of recent activities/events pertaining to the WNY Southtowns Scenic Byway.

DRAFT

Page (2)

DEPARTMENT REPORTS

ADMINISTRATOR REPORT

2. CEO Probation Completion Motion was made by Trustee Skelton, seconded by Trustee Buncy; carried, Mayor Michaels, Trustees Skelton, Buncy, Braman and Padasak voting yes, none opposed to approve completion of six-month probation period for Code Enforcement Officer, John Baker, effective Jan 31, 2024. His required probation will be completed and he will not be required to complete another probation period upon permanent appointment.

Motion was made by Trustee Skelton, seconded by Trustee Braman; carried, Mayor Michaels, Trustees Skelton, Braman, Buncy and Padasak voting yes, none opposed to authorize an increase in Code Enforcement Officer, John Baker's, hourly rate to \$32.69 per hour effective Feb 1, 2024.

3. Fire Grant Applications Motion was made by Trustee Skelton, seconded by Trustee Padasak; carried, Mayor Michaels, Trustees Skelton, Padasak, Braman and Buncy voting yes, none opposed to authorize the Mayor to sign 2023 Volunteer Fire Infrastructure & Response Equipment Grant Applications. One is for a joint application with the Springville Volunteer Fire Dept., Town of Concord, East Concord and Morton's Corners Volunteer Fire Departments for breathing air compressor and an individual application for Springville Volunteer Fire Department for radios.
4. 23/24 Budget Modifications Motion was made by Trustee Skelton, seconded by Trustee Braman; carried, Mayor Michaels, Trustees Skelton, Braman, Padasak and Buncy voting yes, none opposed to modify the 23/24 budget for the purchase of a 2024 1-ton Plow Truck for the Water Department by increasing Water Fund Expenditure line 8340-0231 Vehicles by \$5,559 and decreasing Water Fund Expenditure line 1990-0440 Contingency by \$5,559.

Administrator Melock discussed the following items with the Board;

- Financial reports (Treasurer's report) – Balance sheets, Rev & Exp Summaries have been submitted to the Village Board for Jan. 2024.
- Budget packets have been given to Dept. heads and budget meetings will be Feb 28th & 29th.
- Election information is on the village website www.villageofspringvilleny.com. Please see NYS Board of Election website www.elections.ny.gov for more information or contact your attorney. The last day to submit petitions is Feb. 13th at 5 pm.
- Dygert farm project is moving ahead according to recent information but no other information has been submitted.

SUPERINTENDENT REPORT

5. New #26 Bucket Truck Motion was made by Trustee Skelton, seconded by Trustee Padasak; carried, Mayor Michaels, Trustees Skelton, Padasak, Braman and Buncy voting yes, none opposed to order a new #26 bucket truck for the Electric Dept. This is a hybrid electric vehicle with the purchasing through NYPA's Municipal Alternative Vehicle Program. Price is \$549,242.74. It will take 2 years for delivery. Upon receipt of the truck, the village pays for it and NYPA will reimburse the Village within 30 days. The financed amount turns into a 3-year 0% loan that is paid back to NYPA through the PPA on the electric invoices each month.
6. Load Breaker Switches Motion was made by Trustee Skelton, seconded by Trustee Padasak; carried, Mayor Michaels, Trustees Skelton, Padasak, Braman and Buncy voting yes, none opposed to ordering 3 load switches to upgrade the N. Central electric line. This is a sole source purchase. E.L. Flowers is the only supplier of S&C switches that are in our electric system. Price is \$40,425. These items are one year out from time of order.

7. Water/
Sewer
Truck

Motion was made by Trustee Padasak, seconded by Trustee Braman; carried, Mayor Michaels, Trustees Padasak, Braman, Buncy and Skelton voting yes, none opposed to purchasing a 2024 1-ton Dodge w/ Utility Box and V Plow for Water/Sewer Dept from bid opening on Thursday Jan 25th, 2024 from Emerling Dodge with a 300 day delivery. Bid price is \$70,558.84 which includes a \$30,000 trade-in.

POLICE DEPARTMENT

Officer in Charge Budney reported on the following;

- January 2024 SPD calls handled
- January 2024 ECSO call handled

FIRE DEPARTMENT

Administrator Melock read the Fire report in the absence of Chief Gentner

- Calls for January 2024
- Training
- Grant applications and equipment updates

BUILDING INSPECTOR/CEO

BI/CEO Baker informed everyone that he has received no further calls asking for information on 298 S. Cascade Dr. (former Chinese Buffet) or the former Pizza Hut building. He also told the Board that perhaps they should begin discussions regarding Air bnbs in the Village as currently there is nothing specific in the Village Code.

CONTROL CENTER

The January 2024 Control Center report was read by Trustee Braman;

- Personnel
- Equipment
- Monthly call volume
- Chief's Council meeting

NEW BUSINESS

There was no new business to discuss this evening.

OLD BUSINESS

There was no old business to discuss this evening.

BILLS

Bills, as examined by members of the Board of Trustees were approved for payment in accordance with Abstracts #230 – 246 of 2023/2024 total of \$319,294.24 for the General, Water/Sewer, Electric, Trust and Agency Funds by motion of Trustee Skelton, seconded by Trustee Padasak; carried, Mayor Michaels, Trustees Skelton, Padasak, Braman and Buncy voting yes, none opposed.

PERMITS AND APPLICATIONS

Motion was made by Trustee Skelton, seconded by Trustee Padasak; carried, Mayor Michaels, Trustees Skelton, Padasak, Braman and Buncy voting yes, none opposed to accepting the permits and applications below.

VILLAGE ATTORNEY REPORT

Village Attorney Paul Weiss informed everyone that he will be in court as Village Prosecutor on 2/7/24 regarding the 426 E. Main Street property.

TRUSTEE NOTES & PROJECT REPORTS

Trustee Braman had no report this evening.

Trustee Padasak had no report this evening.

Trustee Buncy had no report this evening.

Trustee Skelton commented on what a great time he had at the recent SVFD Installation dinner and thanked all SVFD volunteers for their service.

Mayor Michaels welcomed the new Erie County Legislator Lindsay Lorigo to this evenings meeting.

8. Tree
Committee
Report

There was no Tree Committee report this evening.

9. Adjourn

Motion was made by Trustee Skelton, seconded by Trustee Braman; carried, Mayor Michaels, Trustees Skelton, Braman, Padasak and Buncy voting yes, none opposed to adjourn the Regular Session at 7:22 pm.

Respectfully submitted,

Holly Murtiff
Deputy Clerk

Resolutions:

1. Appoint Julie Nunweiler as Account Clerk Typist Provisional effective March 7, 2024 at an hourly rate of \$20.50 per hour.
2. Accept Resignation of Courtney Arbeiter, Clerk to the Village Justice, effective February 19, 2024.
3. Appoint Katie Cooper to the position of Clerk to the Village Justice effective February 19, 2024 at the rate of \$19.00 per hour.
4. Authorize to Advertise for Public Hearing on Tentative Budget for 2024-2025 to be held on Monday March 4, 2024 at 7:01 pm at 65 Franklin St.
5. Establishment of Steering Committee for Comprehensive Plan Update. See resolution attached.
6. Authorize Mayor to Sign a One Year Agreement with New Wave Energy for Natural Gas for the village facilities. Fixed price for 12 months. See attached.
7. Authorize Mayor to Sign Pro-Housing Letter for NYS. See attached.
8. Approve Change Order #3 for Contract #2 Electrical Construction for the Waste Water Treatment Plant Upgrades Project for Goodwin Electric Corp. Reduce the amount of the contract by \$56,044 due to quantity reconciliation by GPI. Contract total with the change orders is now \$295,956. See attached.
9. Authorize Invasive Species survey by USDA personnel on village owned property. See attached.
10. Approve Bike fixing station from Stephen Myers for installation at Heritage Skate Park in June 2024. See attached.
11. Authorize Mayor to Sign Concert Contracts for the summer Thursday night concert series starting June 27th-Aug 22. Cost is split between Village of Springville & Town of Concord. Kiwanis will be selling hot dogs and snacks at the concert series. See attached list of bands.
12. Modify 23-24 Budget to actuals. See attached.

Discussions:

1. Budget packets have been given to Dept heads and budget meetings will be Feb 28th & 29th at 65 Franklin St.
2. Election information is on the village website www.villageofspringvilleny.com. Please see NYS Board of Election website www.elections.ny.gov for more information or contact your attorney. Election Day is March 19th from Noon till 9 pm. Last day to register with Erie County Board of Elections is March 8th.
3. Last day to pay any unpaid water/sewer and lawn mowing invoices is April 22nd. Any accounts left unpaid after that will be relieved onto the Village tax bill for June 1st.

Comprehensive Plan Steering Committee Resolution

WHEREAS, the Village of Springville was awarded an Erie County Municipal Planning Grant through Round 2 of the program to develop a Comprehensive Plan Update and Subdivision Regulations Update (hereinafter, "Comprehensive Plan") and

WHEREAS, on January 16, 2024, the Village of Springville executed a contract with the Erie County for the development of the aforementioned Comprehensive Plan, and Subdivision regulations Update.

WHEREAS, on January 16, 2024, the Village of Springville hired the consultant team of Barton & Loguidice to provide comprehensive planning services; and

WHEREAS, it is in the best interest of the Village of Springville to establish a Comprehensive Plan Steering Committee (hereinafter, "Steering Committee") to guide the comprehensive planning process; and

WHEREAS, the Steering Committee will be responsible for working directly with the consultant team, informing the comprehensive planning process with local insight and knowledge, assisting with the planning and facilitation of community engagement activities, reviewing draft documents, and completing other tasks relevant to and necessary for the completion of a Comprehensive Plan in accordance with NYS Village Law Section 7-722; and

WHEREAS, the Village Board of the Village of Springville solicited interest in serving on the Steering Committee from Village officials, staff, residents, and stakeholders, and considered such individuals for appointment to the Steering Committee; and

NOW, THEREFORE, BE IT RESOLVED, that the Village Board of the Village of Springville establish a Comprehensive Plan Steering Committee; and

BE IT FURTHER RESOLVED that the Village Board of the Village of Springville appoint the following individuals to the Comprehensive Plan Steering Committee:

- Mary Padasak, Village Trustee
- John Baker, Code Enforcement Officer
- Devin Kowalske, Planning Board Member
- Robert Laskowski, Zoning Board Member
- Terry Skelton, Village Resident & Village Trustee till April 1, 2024
- Joe Emerling, Village Business Owner
- Briana Zuchowski, Erie County Planning

This resolution shall take effect immediately.

Village Springville Natural Gas Strategy

2/16/24

We are very excited to help local governments save through our Municipal Energy Management Program (MEMP).

Based on an analysis of the Village's usage and current procurement strategy; we found the opportunity to provide a more competitive rate that yields approximately **10%** savings that results in **\$1,500** in saved on natural gas prices annually.

MEMP is proposing a fixed energy rate of **.350** for 12 months. A fixed rate ensures a lower rate over a 12 month period compared to the current purchasing strategy.

Purchasing in March each year will allow the village to procure rates at the lowest annual price for the year.

No cost to enroll with this fixed rate. There is no penalty or issues leaving the current purchasing consortium.

Enclosed please find:

1. Cost Savings Analysis for National Fuel accounts.
2. An executable agreement for 12 months.
3. New Wave Energy customer references.

Box Tree Moth and European Cherry Fruit Fly Response

Property Access Request

United States Department of Agriculture is requesting permission to trap for an invasive pest, the Box Tree Moth (BTM) and/or the European Cherry Fruit Fly (ECFF) on your property.

- USDA has my permission to place a BTM/ECFF trap or traps on my property. I understand that the trap(s) will be serviced at least every 3 weeks and will be removed on or before November 30th.
Trap service notification is not necessary.
I would like to be notified each time trap service is performed.
USDA does not have permission to place a BTM/ECFF trap or traps on my property.

Questions and Answers

2024 European Cherry Fruit Fly Survey in New York

What is the European cherry fruit fly (ECFF), and why is it a threat?

ECFF (*Rhagoletis cerasi* L.) is a serious pest of cherries. The fly damages ripening fruit, causing it to rot and fall off the tree. In heavily infested areas, the fly can destroy all ripening cherries if left uncontrolled. The pest can spread to new areas through the transport of infested fresh cherries, soil, or fruit from host plants. The U.S. Department of Agriculture (USDA) first found European cherry fruit fly on traps hung along the Niagara River in New York's Niagara County in 2017.

What is the ECFF survey?

USDA's Animal and Plant Health Inspection Service (APHIS) and New York's State Department of Agriculture and Markets (NYS AGM) will hang approximately 2,000 traps across Western and Central New York, which is under quarantine for ECFF. APHIS will also hang traps outside the ECFF quarantine in areas that are at higher risk for the pest's spread.

What do the traps look like?

The yellow panel trap is a rectangular cardboard trap coated on both sides with a mixture of a nontoxic glue and a food bait. The traps are about 9 inches long and hang vertically in trees.

Do the traps really catch the fruit flies?

The trap helps detect new infestations and monitors the insect's spread. It is not meant to catch fruit flies to reduce populations.

How do the traps work?

Adult fruit flies are attracted to the ammonium acetate food bait that's on the trap. If the flies land on the trap, they will get stuck in the nontoxic glue. APHIS and NYS AGM service the traps at least every 2 weeks to replace the bait and collect insects.

If a trap is in my area, does that mean ECFF is there?

No. If you see a trap in your community, it does not mean ECFF is present. It just means we are looking for ECFF in your area. The goal of the survey is to determine where the insect is and monitor its spread.

What were the results of the 2023 survey in New York?

The 2023 survey found 271 ECFF in 40 trap locations. These results helped guide decisions on trap placement for the 2024 survey.

Where will traps be set this year?

For the 2024 season, surveyors will place traps along the edge of the quarantined areas in Western and Central New York. APHIS will also hang traps in selected areas in Michigan and Pennsylvania.

How can I help?

Please allow APHIS and NYS AGM surveyors access to your property to place and check traps. Residents with questions can contact the ECFF program office by calling 1-800-249-2363 or emailing ppq.ecff@usda.gov. Learn more at www.aphis.usda.gov/hungrypests/ecff.

Pest Alert

Animal and Plant Health Inspection Service
Plant Protection and Quarantine

European Cherry Fruit Fly (*Rhagoletis cerasi*)

Adult European cherry fruit fly (Biopix, S.D. Lund, www.biopix.com)

European cherry fruit fly is the most serious pest of cherries in Europe. The fly attacks ripening fruit, causing it to rot and fall off the tree. In heavily infested areas, the fly can destroy up to 100 percent of cherry and other host plants if left uncontrolled.

Distribution

European cherry fruit fly is found throughout Europe and in parts of West and Central Asia. In 2016, Canada confirmed this pest on wild honeysuckle at several sites in Ontario. In 2017, the United States found European cherry fruit fly on traps hung in wild honeysuckle plants and sweet cherry trees along the Niagara River in New York. This was the first U.S. detection of European cherry fruit fly.

Damage

European cherry fruit fly attacks only the fruit of its host plants. Larvae-infested fruit may have dark soft spots or appear wilted or shriveled. As mature larvae emerge from the fruit, they may leave behind visible exit holes.

If European cherry fruit fly becomes established in the United States, it could affect U.S. access to foreign cherry markets and cause lower prices and economic losses for U.S. cherry growers.

Host Range and At-Risk Areas of the United States

European cherry fruit fly prefers sweet cherries and honeysuckle, but may also attack tart cherries. If this pest establishes itself in New York and spreads to other parts of the country, it could threaten commercial cherry production along the Pacific Coast (California, Oregon, and Washington), in the Northeast (Maryland, New York, and Pennsylvania), and in several Western and Central States (Colorado, Michigan, New Mexico, and Utah).

Appearance and Life Cycle

Adult flies range in length from 1/8 to 3/16 of an inch (3.5–4.0 millimeters). Both males and females are mostly black with yellow to orange heads. A

large yellow dot is visible on their backs. The wings are transparent with dark bands.

Adults typically emerge from May to July and have an average lifespan of 2 to 4 weeks. Females usually lay one egg beneath the skin of each piece of fruit. Once they hatch from the eggs, the larvae develop inside the fruit and feed for up to 6 weeks. As the larvae develop, they damage the fruit pulp. Mature larvae exit the fruit through emergence holes, drop to the ground, and burrow into the soil. Once in the soil, they pupate within a few days and overwinter in the soil underneath or near the host plant.

Preventing Fruit Fly Spread

When U.S. Department of Agriculture (USDA) or State agriculture officials find an infestation of invasive fruit flies that could damage crops in this country, State regulatory officials first establish an intrastate quarantine to prevent the pest's spread within that State. USDA then establishes a parallel interstate quarantine to keep the pest from

spreading to other States. Together, these quarantines allow State and Federal officials to control and suppress the outbreak locally and regulate the movement of host fruits, nursery plants, and other items that could harbor the pest. These efforts help protect growers in other vulnerable parts of the country.

What You Can Do

Please cooperate with agricultural workers who may be in your area surveying for the pest. In areas where the pest has been found, agricultural workers may request approval from the property owner to apply treatment to prevent the spread. Know and follow any quarantine restrictions in fruit fly-infested areas.

When traveling, declare all food, live animals, and plant or animal products to a U.S. Customs and Border Protection officer or agriculture specialist at the first port of entry. If your items are generally allowed, the inspector will check them to make sure they are free from pests and disease.

If you travel to Canada, be advised that you may not bring cherries from Ontario into the United States. Cherries from other Canadian provinces are allowed if they are accompanied by a receipt or other document that confirms the fruit's origin. For more information, view the Federal Order: www.aphis.usda.gov/import_export/plants/plant_imports/federal_order/downloads/2017/DA-2017-15.pdf.

New York Residents: Check Your Boxwoods for the Box Tree Moth!

The box tree moth (*Cydalima perspectalis*) is an invasive pest that can kill boxwoods if left unchecked. We need your help to keep it from spreading. Here's what to look for:

Brown Leaves and Defoliation (look for missing sections of leaves or skeletonized leaves)

Healthy

Partially Infested

Heavily Infested

Caterpillars and Webbing (young caterpillars hide among twigs/leaves, can grow to 1.5")

Matteo Maspero and Andrea Tantardini, Centro MIRT - Fondazione Minoprio (IT)

Frass
(sawdust-like insect excrement)

Pupa
(may be wrapped in webbing)

Adult Moths
(hard to spot; most active at night)

Adobe Stock

Do Your Part To Stop the Box Tree Moth

1. Find and Report

If you live **outside Niagara County** and find any signs of infestation, take a picture and report it online at <https://arcg.is/1Df8Se> or scan the QR code.

If you live **inside Niagara County**, you don't need to report your findings. But keep checking regularly for this pest to protect your boxwoods.

2. Cooperate With Agriculture Officials

Agriculture officials may ask for permission to access your property so we can visually inspect your boxwood plants or place box tree moth traps. Please cooperate with us! This work is important to stop the spread.

3. Protect Your Boxwoods

Remove infested branches or, for heavy infestations, cut the boxwood from its base (it should grow back from its roots). Discard all boxwood debris by double-bagging it in plastic and putting it with your household trash.

For more information, and a list of insecticides known to be effective against destructive caterpillars, go to www.aphis.usda.gov/planthealth/box-tree-moth (click on "Resources"). You can also contact your County Cooperative Extension office (cals.cornell.edu/cornell-cooperative-extension/local-offices) for treatment options specific to your needs:

Niagara County: (716) 433-8839, niagara@cornell.edu

Erie County: (716) 652-5400, erie@cornell.edu

Orleans County: (585) 798-4265, orleans@cornell.edu

Genesee County: (585) 343-3040, genesee@cornell.edu

Questions?

Call the U.S. Department of Agriculture (USDA) at 1-800-249-2363.

Pest Alert

Plant Protection and Quarantine

Box Tree Moth (*Cydalima perspectalis*)

The box tree moth is an invasive pest that primarily feeds and completes its life cycle on boxwood species (*Buxus* spp). In its native range, it also feeds on burning bush (*Euonymus alatus*), Japanese spindletree (*E. japonicus*), purple holly (*Ilex chinensis*), and orange jessamine (*Murraya paniculata*) once all nearby boxwoods are completely defoliated.

Distribution and Spread

The box tree moth is native to temperate and subtropical regions in Asia. It was first reported in Europe in 2007, after which it spread rapidly across European countries and into Western Asia and Northern Africa. In 2018, it was documented in Canada, and in 2021, the U.S. Department of Agriculture (USDA) confirmed the presence of the moth in Niagara County, NY, near the Canadian border. The rate of spread for the box tree moth has varied since its introduction in Europe, with some cases peaking at 96 miles per year. Long distance movement of the box tree moth across Europe occurred primarily through the movement of infested boxwood plantings.

Box tree moths are highly mobile and are good fliers. Natural spread of this moth in Europe is about 3 to 6 miles per year. One analysis from Europe concluded that natural dispersal from continental Europe to the United Kingdom was possible, suggesting sustained adult flights of over 20 miles.

Damage

In 2014, boxwood made up 15 percent of broadleaf evergreen sales in the United States, and the estimated value was \$126 million (USDA-NASS, 2015). Boxwoods are

Adult moths (top and bottom left), damage (bottom)

typically planted as ornamentals and used for edging, as hedges, and/or clipped into different shapes to make topiaries. The box tree moth can cause heavy defoliation of boxwood plants if populations are left unchecked. Defoliation of existing and new growth can kill the plant. If no foliage is available, larvae have been observed feeding on the bark, which can cause branches or the entire plant to die.

Description

Adult box tree moths generally have white bodies with a brown head and abdomen. Their wings are white and slightly iridescent, with an irregular thick brown border spanning 1.6

to 1.8 inches. Some adults have completely brown wings with a small white streak on each forewing. Males and females show both colorations.

The eggs are pale yellow and average 0.04 inches in size. They are laid in flat clusters of about 5 to 20 on the underside of boxwood leaves. As they mature, a black spot appears marking the larval head.

Newly hatched larvae have black heads and are green to yellow in color. As they age, dark brown stripes develop on the body. The most mature larvae are about 1.6 inches long and have thin white and thick black stripes and black dots outlined in white along the length of the body.

Pupae develop inside a silk cocoon and are 0.6 to 0.8 inches long. They are initially green, with black stripes on the back, and turn brown as they mature.

Life Cycle

Adult female box tree moths lay their eggs singly or in clusters of about 5 to 20 in a gelatinous mass on the underside of boxwood leaves. Box tree moths overwinter as larvae. Once temperatures rise, overwintering larvae emerge and typically begin feeding in March, continuing until they pupate in late April to early May. As they develop, they spin silken webs to hold leaves together and create protected areas to feed. They tend to feed on leaves in the lower portion of host plants but reside in the upper portion and remain active until September or October.

Pupation occurs on the host leaves in silk cocoons. If the boxwood host is defoliated, pupation may occur away from the host plant using leaves from the surrounding area. Pupae will typically first appear in April or May and will be present continuously through the summer and into the fall, depending on the local climate and timing of generations.

Adults first emerge from the overwintering generation between April and July, depending on climate and temperature. Subsequent generations are active between June and October. Adults typically live for 2 weeks after emergence.

Caterpillars, webbing, and frass (top); pupa (bottom left); magnified egg masses (bottom right)

Where To Look

Signs of damage may not appear at the beginning of an infestation because young larvae hide among twigs and leaves. Larvae skeletonize the leaves and feed on the bark, causing defoliation and dryness, leading to the plant's death. Signs of feeding include green-black frass (excrement) and webbing.

The female moths lay their eggs on the underside of the leaves of boxwoods.

Report Your Findings

If you find an insect that you suspect is the box tree moth in New York, please submit an online report to have the specimen identified properly: www.arcg.is/1Df8Se.

For questions, please call USDA at 1-800-249-2363. You may also contact your local Extension office or State Plant Regulatory Official.

To locate an Extension specialist near you, go to the USDA website at www.nifa.usda.gov/Extension. A directory of State Plant Regulatory Officials is available on the National Plant Board website at www.nationalplantboard.org/membership.

ITEM # THS-1 / REPAIR STANDS / PUBLIC

TRAILHEAD WORKSTATION

★★★★★ [0 Reviews](#) | [6 Questions, 8 Answers](#) | [Write a Review](#)

The THS-1 is a great addition to any trailhead, park, campus, apartment building, school, bike shop or anywhere else riders may need some help to get back on their bikes. This weather-proof stand features a super-stout cradle stand to get both wheels off the ground, making any adjustment easier. includes eight carefully-chosen tools capable of helping with a wide variety of minor repairs and adjustments, securely mounted on vinyl-coated 1/8" galvanized cable. All steel construction, plated then powder coated to withstand the elements, with tamper-proof assembly fasteners for added security. Can be bolted directly to an existing post, permanent structure, or to the THP-1 Post (available separately).

VILLAGE OF SPRINGVILLE
DEPARTMENT OF PUBLIC WORKS
Duane Boberg
Superintendent of Public Works
Superintendent Report for February 20, 2024

ATTACHMENT NO. A3

AGENDA DATE 2/20/24

Resolution: Declare surplus 6- 40ft electric pole. These are the old poles that came out from the Eaton Park project. They all have full length splits and can not go back into the system.

VILLAGE OF SPRINGVILLE
5 WEST MAIN STREET
SPRINGVILLE, NEW YORK 14141

ATTACHMENT NO.

A4

AGENDA DATE

2/20/24

The Village Board has directed that all requests, issues of interest and/or complaints for the Code Enforcement and/or Village Board discussion be presented in writing or by personal appearance before the Board.

Village Board meetings are held on the first and third Mondays of each month. Items for discussion at the meeting must be submitted to the Village Clerk no later than the Thursday preceding the scheduled meeting, to allow adequate time to research the request/complaint.

Please use the space below to provide specific, detailed information of your request/complaint. Unsigned complaints will not be honored.

DATE: 2/6/2024

LOCATION (IF APPLICABLE): 514 Franklin St, Springville, NY 14141

SUBJECT: On February 2nd, I received my January utility bill which was more than double my typical costs. After some research, I realized water had been running (and was still at that time) by checking my water meter. To my surprise, after turning off my loud dehumidifier I could hear an outdoor hose spigot. I had neglected to turn it off in the house before winter and it was running into my side yard. I cranked the knob closed and turned the water off in the basement. I would respectfully request you to give sewer charges above my average monthly usage as this excess water did not flow through the typical waste water process. Thank you for your consideration.
